AIRAS Cloud

Board Briefing

A clear brief on AI risk for directors.

AIRAS Cloud Solutions · Dublin, Ireland · 2026 edition

The problem

Directors are accountable for AI risk but rarely see a single, trustworthy view of what AI the organisation runs and how it is governed.

How AIRAS solves it

1. One register of every AI system and owner.
2. Clear classification with explained reasoning.
3. Named-human decisions on record.
4. Evidence the board can rely on.

Worked example

A fictional board receives a quarterly one-page view: systems found, decisions made, evidence completeness and the next deadlines.

Fictional organisation. Illustrative only — not an ARIE result or legal advice.

Full licence or one product

	Full Licence	ARIE	Shadow AI	Evidence Vault	AI Register
Find unsanctioned AI	●	—	●	—	—
EU AI Act classification	●	●	—	—	—

Audit-ready evidence packs	●	—	—	●	—

Shadow AI is included in the AIRAS Cloud full licence and is also available on its own.

Five steps to your first governed decision

1 **Founder call**
30 minutes to understand your AI estate.

2 **Scoping**
Products, sources and success measures.

3 **Pilot**
A controlled pilot on your real obligations.

4 **Contract**
An Order Form for what you chose.

5 **Onboarding**
Tenants, roles, sources, first decisions.

Checklist and questions

- Do we know every AI we run?
- Who owns each one?
- Which obligations apply, and when?
- Could we prove it tomorrow?

What should the board ask first?

Whether the organisation can list every AI system it uses.

How often to report?

Quarterly, and before any key deadline.

Book a founder call.

30 minutes. Your AI estate. A clear recommendation.
